

SHAJIB CHANDA

Full Stack Developer · Next.js · MERN Stack

+880 1306-909153 | sajibchanda73@gmail.com | Sylhet, Bangladesh | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building full-stack web applications using React.js, Next.js, and the MERN stack. Skilled in JWT-based authentication, role-based access control, responsive UI design, and deploying production apps on Vercel and Netlify. Final-year CSE student at Metropolitan University with a strong record of shipping complete projects end-to-end. Looking to join a product team where I can solve real user problems and grow as an engineer.

EXPERIENCE

Software Development Intern — S&S Digital Technologies (July 2026)

- Built REST APIs (Node.js/Fastify, PostgreSQL, MongoDB, Redis) for a travel platform — trip management, authorization flows, background jobs (BullMQ), Razorpay payments.
- Transitioned to frontend, building a marketing site and shared UI components (Next.js, TypeScript, Tailwind, shadcn/ui, React Query) for a service marketplace MVP.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, Next.js, React Router, Context API

UI / Styling: Tailwind CSS, DaisyUI, HeroUI, Framer Motion, responsive design, accessibility

Backend: Node.js, Express.js, MongoDB, REST APIs, JWT, Better Auth, web security

Basics Tools: Git, GitHub, Vercel, Netlify, VS Code, Figma-to-code, Chrome DevTools

Ai Workflow: ChatGPT, Gemini, GitHub Copilot, Claude, Cursor, Antigravity, prompt engineering, AI-assisted debugging, README writing, test-case generation.

Soft Skills: Problem solving, self-learning, deadline ownership, team communication, technical documentation

PROJECTS

PetHaven — Pet Adoption Platform [Live Demo](#) · [GitHub-Client](#) · [GitHub-Server](#)

Stack: Next.js, Express.js, MongoDB, Better Auth, JWT, Tailwind CSS, HeroUI

- Built a full-stack pet adoption platform where owners list pets and adopters submit/track requests; implemented JWT-protected private routes and a real-time approval dashboard for pet owners.
- Engineered secure authentication with Better Auth, role-based UI rendering, and dark/light theme toggle — resulting in a fully responsive, production-ready application.

SafeHome — Property Rental & Booking Platform [Live Demo](#) · [GitHub-Client](#) · [GitHub-Server](#)

Stack: Next.js, Express.js, MongoDB, Better Auth, JWT, Stripe, Tailwind CSS, HeroUI, Framer Motion

- Built a full-stack property rental platform with role-based dashboards for Tenants, Owners, and Admins; implemented JWT-protected APIs, Stripe payment integration, and real-time booking approval workflows.
- Engineered secure authentication with Better Auth and Google OAuth, multi-image uploads via ImgBB, server-side pagination & filtering, and dark/light theme toggle — delivering a fully responsive, production-ready application.

SunCart — Summer Essentials eCommerce [Live Demo](#) | [GitHub](#)

Stack: Next.js, Better Auth, MongoDB, Tailwind CSS, HeroUI, DaisyUI

- Developed a seasonal eCommerce store with Google OAuth, protected product detail pages, user profile management, and dynamic product listings.
- Implemented clean component architecture with reusable UI elements, reducing code duplication and making future feature additions straightforward.

EDUCATION

B.Sc. in Computer Science & Engineering (Final Year) | Metropolitan University, Sylhet 2022 — Present

- Relevant coursework: Web Development, Database Systems, Software Engineering, Data Structures, OOP, Computer Networks

CERTIFICATIONS

- Python Programming & Basic Data Science — IICT/BCC (2024)
- Complete Web Development Course — Programming Hero (2024–Present)

LANGUAGES & SOFT SKILLS

Languages: Bangla (Native) · English (Professional — technical docs, communication)
